July 13-14, 2019
Musculoskeletal Diagnostic Ultrasound
Session #7 - The Knee
Instructor: Daniel Haun, DC, DACBR

This weekend Dr. Dan Haun presents Session #7 of the Musculoskeletal Diagnostic Ultrasound Certification Course. In this session Dr. Haun covers the knee. Here are the objectives for session #7: (1) review of the basic operation of ultrasound systems and scanning protocols of the hip and proximal thigh regions (2) ultrasound imaging protocols for the knee region (3) hands-on scanning of the knee region on live subjects (4) review of sonographic pathoanatomy, clinical applications of sonography, and clinical correlations related to normal musculoskeletal conditions of the hip and proximal thigh knee region. Dr. Haun begins with normal ultrasound of the knee region and then demonstrates scanning protocols of the knee region. He covers the anterior knee: quadriceps and patellar tendinopathies, knee joint effusion, and patellar tracking disorders, followed by hands-on scanning practice. He follows the scanning practice with anatomic correlation in the anatomy lab. In Hour 9 Dr. Haun

discusses the medial knee including the medial collateral ligament, pes anserine and pes anserine bursa, and medial meniscus. He then presents the lateral knee including distal biceps femoris tendon, distal IT band, and lateral meniscus. In Hour 11 he discusses the posterior knee including this semitendinosus and semimembranosus tendons, gastrocnemius tendons, popliteal (Baker's) cyst evaluation, and tibial nerve and common fibular nerve. He wraps up session number seven with the review of imaging protocols and hands-on practice. This session is taught by Daniel W. Haun, DC, DACBR. Dr. Haun is a 2004 graduate of Logan College of Chiropractic. He is a Diplomate of the American Chiropractic Board of Radiology. Dr. Haun is an instructor in the Clinical Science Division and Chiropractic Science Division of Logan University. He is an expert in diagnostic ultrasound and brings his considerable expertise to this 12-hour presentation.

Times: Saturday 1:00pm - 7:00pm
Sunday 8:00am - 2:00pm
Tuition: \$280 Regular Registration
\$250 Early Bird Tuition*

**Tuition must be received by
 June 28, 2019
 to qualify for discount.*

 October 5-6, 2019 - Session #10

SCHEDULE

July 20-21, 2019
Basic Acupuncture - Session #2
Instructor: Lisa Holt, DACM, L.Ac. (NCCAOM),
RN, CPC, CRF, FASA

The 100-Hour Acupuncture Certification Course continues this weekend with Session # 2. In this 16.75 hour seminar Dr. Lisa Holt presents an introduction to press needles, tacks, magnets and pellets. She presents an introduction to acupuncture for pain control, discusses acupuncture for sports injuries and acupuncture for musculoskeletal conditions. She introduces the five phase theory and provides an introduction to electronic graphing. Also this weekend she provides a detailed study of Stomach Meridian Patterns, Diet, Emotions, Climate, Qi Deficiency, Cold, Yin Deficiency, Fire, etc. she continues with a detailed study of the Spleen Meridian patterns and needling of each point. This session concludes with a presentation on Clean Needle Technique. The session is taught by Dr. Lisa Holt. Dr. Holt is a 2017 graduate of Pacific College of Oriental

Medicine in San Diego, California. She is also a registered nurse (RN) and holds a large number of certifications in various healing methods. She maintains a private practice at LifePoint Acupuncture and Oriental Medicine Clinic in Chattanooga, Tennessee. Dr. Holt has earned privileges at prestigious Erlanger Hospital in Chattanooga, Tennessee as a licensed Acupuncture Physician and works alongside other healthcare practitioners to provide functional and integrative patient centered care. We are proud to have Dr. Holt join Dr. Zev to make our excellent 300-Hour acupuncture certification course even better. Please join her this weekend for Session # 2 of this in-depth course in Basic Acupuncture.

Times: Saturday 8:00am - 7:00pm
Sunday 7:00am - 12:45pm
Tuition: \$330 Regular Registration
\$295 Early Bird Tuition*

**Tuition must be received by
 July 8, 2019
 to qualify for discount.*

Advanced Acupuncture - Session #2
Instructor: Zev Myerowitz, DC, Dipl.Ac.
(NCCAOM), Lac.

The Advanced Acupuncture Program continues this weekend with Dr. Zev presenting TCM Diagnosis and Chinese Herbs, Specific Herbal Testing and Protocols, Eight Methods of Herbal Treatment, Chinese Herbal Materia Medica, and Chinese Diagnostic Systems. The Advanced classes delve deeper into all aspects of acupuncture and can lead to Diplomate status with the American Academy of Chiropractic Acupuncture and eligibility to sit for the Diplomate examination of the American Board of Chiropractic Acupuncture. If you are already certified in acupuncture you won't want to miss this opportunity to become an expert, maybe even a Diplomate in this powerful healing art. This session is taught by Zev Myerowitz, DC, Dipl.Ac. (NCCAOM), Lac. a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission

for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join Dr. Zev this weekend for Session # 2 as this in-depth course in Advanced Acupuncture continues.

Times: Saturday 8:00am - 7:00pm
Sunday 7:00am - 12:45pm

Tuition: \$350 Regular Registration
\$315 Early Bird Tuition*

**Tuition must be received by July 8, 2019 to qualify for discount.*

Musculoskeletal Diagnostic Ultrasound
Session #8 - The Ankle
Instructor: Ross Mattox, DC, RMSK

This weekend Dr. Ross Mattox present Session #8 of the musculoskeletal diagnostic ultrasound certification course. In this session Dr. Mattox covers the ankle. Here are the objectives for session number #8: (1) review basic operation of ultrasound systems and scanning protocols of the knee region (2) learn ultrasound imaging protocols for the ankle region (3) train in hands on scanning of the ankle region on live subjects (4) review sonographic pathoanatomy, clinical applications of sonography, and clinical correlations related to neuromusculoskeletal conditions of the ankle region. Dr. Mattox begins with the review of knee imaging protocols and hands-on skill development and then presents normal ultrasound anatomy of the ankle region. He follows up with hands-on scanning practice of the ankle region. In hour 5 he discusses anterior ankle pathology and protocols including anterior ankle tendons, distal tibiofibular joint, and ankle impingement syndromes. He follows that with hands-on scanning practice, and anatomic correlation in the anatomy lab. In hour 9 he discusses the medial ankle including the medial

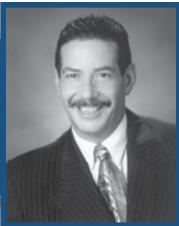

collateral ligament, general tendinopathies, posterior tibial tendinopathy, spring ligament, and posterior tibial nerve. In hour 10 he discusses the lateral ankle including the lateral collateral ligament-ATFL, CFL, PTFL, and fibularis tendinopathy. In hour 11 he discusses the posterior ankle including Achilles tendinopathy, posterior ankle impingement syndrome, and medial gastrocnemius strain injury. He wraps up session number eight with a review of imaging protocols and hands on practice. This session is taught by Ross Mattox, DC, RMSK. Dr. Mattox is a 2007 graduate of Logan College of Chiropractic. He is Board Exam Eligible for the American Board of Chiropractic Acupuncture. He is Registered in Musculoskeletal Sonography (RMSKO), and is certified in Insurance Consultant/Peer Review. Dr. Mattox completed a Fellowship in advanced imaging with emphasis on musculoskeletal diagnostic ultrasound. He is an Integrated Health Center Clinician – Assistant Professor at Myrtle Hilliard Davis Comprehensive Health Center, Inc. /Logan University. Please join Dr. Mattox this weekend for Diagnostic Ultrasound of the Ankle.

Basic Acupuncture - Session #3
Instructor: Zev Myerowitz, DC, Dipl.Ac.
(NCCAOM). Lac.

Dr. Zev Myerowitz's 100-Hour Acupuncture Certification Course continues this weekend with Session # 3. In this 16.75-hour seminar Dr. Zev presents a detailed study of Heart Meridian Patterns, Qi Deficiency, Yang Deficiency, Yang Collapse, Blood Deficiency, Yin Deficiency, Fire Blazing, Phlegm, Blood Stagnation, Combinations and Needling of each point. He also presents study of the Small Intestine Meridian, Special Effect Points and conditions treatable. Session # 3 continues with the Twelve Divergent Channels, 15 Connecting Channels, and Root 5 and Branch Theory. As this jam-packed weekend continues, Dr. Zev presents a detailed study of Bladder Meridian Patterns, Climate, Emotions, Excess Sex, Damp-Heat, Damp-Cold, Deficiency, Combinations and Needling. In hours 13-15 he does a detailed study of Kidney Meridian Patterns, Hereditary Weaknesses, Emotions, Excessive Sexual Activity, Chronic Illness, Overwork, Premature Aging, Yin Deficiency, Yang Deficiency, Qi Not Firm, Failure to Receive Chi, Loss of Essence, Combinations and Needling. He concludes this session with Tongue and Pulse Diagnosis. The course is taught by one of the most

knowledgeable and most popular acupuncturists in our profession. Zev Myerowitz, D.C., Dipl.AC (NCCAOM), LAc., is a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a licensed acupuncturist in the state of Maine. He has extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. August 24-25, 2019
Comprehensive Management of Acute and Chronic Low Back Pain
Instructor: Linda W. Smith, DC

We are very excited to have Dr. Linda Smith on campus this weekend to present a truly comprehensive course on the management of low back pain. Dr. Smith has been in private practice for 36 years. She has developed protocols for the management of severe, acute low back pain as well as chronic recurrent lower back pain that include spinal adjustments, soft tissue manipulation, and physical agents. In addition she will guide you to utilize exercise prescriptions for the correction of muscular imbalances and postural faults. Dr. Smith's class begins with careful assessment of the patient in the development of a treatment plan. How to assess progress and when to discharge the patient will be discussed. Linda Wheatland Smith, D.C. is a

1982 graduate of Logan College of Chiropractic. She has co-authored a number of papers in the Journal of Chiropractic Medicine and is a research associate at Washington University School of Physical Therapy. Dr. Smith has been honored for her work with Community Health in Partnerships (CHIPS) and with the Arthritis Foundation. She is credentialed in pain management by the American Association of Pain Management and has had a very successful practice of chiropractic in Clayton, Missouri. Please join her for this excellent presentation on management of low back pain.

Times: Saturday 1:00pm - 7:00pm
Sunday 8:00am - 2:00pm
Tuition: \$235 Regular Registration
\$205 Early Bird Tuition*

**Tuition must be received by August 9, 2019 to qualify for discount.*

September 7-8, 2019
Musculoskeletal Diagnostic
Ultrasound - Session #9 - The Foot
Instructor: Patrick Battaglia, DC, DACBR

This weekend Dr. Patrick Battaglia presents session #9 of the Musculoskeletal Diagnostic Ultrasound Certification Course. In this session Doctor Battaglia covers the foot. Here are the objectives for session #9: (1) review basic operation of ultrasound systems and review scanning protocols of the ankle region (2) learn ultrasound imaging for the foot (3) train in hands-on screening of the foot on live subjects (4) review sonographic pathoanatomy, clinical applications of sonography, and clinical correlations related to neuromusculoskeletal conditions of the foot. Dr. Battaglia begins with a review of ankle imaging protocols and hands-on skill development; and normal ultrasound anatomy of the foot. He follows that with scanning protocols for the foot and hands-on scanning practice of the foot. In hour 5 Dr. Battaglia presents plantar foot pathology and protocols

including fascia and fasciopathy, medial and lateral plantar nerves, flexor tendons, posterior tibial tendon insertion, sesamoids and plantar plates, digital nerves and Morton's neuroma, and Lisfranc ligament. He follows up with hands-on scanning practice. In hour 7 he teaches his anatomic correlation in the anatomy lab. In hour 10 Dr. Battaglia discusses the dorsum of the foot including extensor tendons, joint evaluations, Lisfranc ligament, digital nerves and Morton's neuroma. He wraps up this excellent 12-hour session with a review of imaging protocols and hands-on practice. This session is taught by Dr. Patrick Battaglia. Dr. Battaglia is a 2012 graduate of Logan College of Chiropractic. He is a Diplomate of the American Chiropractic Board of Radiology. He is a faculty member of Logan University and has co-authored a number of original research papers. In 2017, Dr. Battaglia completed Fellowship Training at Logan University in Diagnostic Imaging with emphasis on musculoskeletal ultrasound.

Basic Acupuncture - Session #4
Instructor: Lisa Holt, DACM, L.Ac. (NCCAOM),
RN, CPC, CRF, FASA

In this session of the 100-hour Acupuncture Certification Course Dr. Lisa Holt presents a detailed study of the Pericardium Meridian, Special Effect Points, and conditions treatable, with needling of each point. She also provides a detailed study of San Jiao Meridian Patterns, Upper, Middle, and Lower Burners, with needling. As this 16.75-hour session continues Dr. Holt presents the Micro Systems: Scalp, Hands, Face and Ear, and Facial Rejuvenation (TCM, Korean, Electro). She also describes the Identification of Patterns According to the Five Elements. In hours 13-16 Dr. Lisa presents a detailed study of the Gall Bladder Meridian Patterns, Diet, Emotions, Climate, Damp-Heat, Deficiency and needling of each point. She concludes this session with a practice workshop on

tongue and pulse. This session is taught by Dr. Lisa Holt. Dr. Holt is a 2017 graduate of Pacific College of Oriental Medicine in San Diego, California. She is also a registered nurse (RN) and holds a large number of certifications in various healing methods. She maintains a private practice at LifePoint Acupuncture and Oriental Medicine

Clinic in Chattanooga, Tennessee. ACA Women's Health Symposium
Caring for the Female Patient Throughout
Her Physiological Journey • Multiple Instructors

Logan University in conjunction with the ACA Women's Council is proud to present the first-ever Women's Health Symposium: Caring for the Female Patient Throughout Her Physiological Journey. This is shaping up to be a world-class event. The top instructors in the profession including Dr. Cindy Howard, Dr. Jay Greenstein, Dr. Mike Bagnell, Dr. Annette Schippel, Dr. Kris Petrocco-Napuli, Dr. Karen Erickson, Dr. Delilah Renegar, Dr. James Demetrious, Dr. Dan Haun, Dr. Sarah Radabaugh, and others cover topics such as breast feeding dysfunction, the power of posture

in women and all of the topics you see below. Add to that a panel on propelling the health and wellness of our female patients, and a panel on the value of whole health for the female patient and you have a comprehensive presentation on caring for the female patient. But it's not all work and no fun. It's going to be a great weekend with a late lunch buffet on Saturday and a brunch buffet on Sunday. There will also be raffles and book signings, exhibitors, and camaraderie. St. Louis is the place to be on the weekend of September 28-29, 2019. This will be a great event! Don't miss it! See you in September.

COMING TO THE PURSER CENTER AT LOGAN UNIVERSITY
SEPTEMBER 28-29, 2019

THE WOMEN'S HEALTH SYMPOSIUM

Logan University is excited to host the first ever ACA Council on Women's Health Symposium: *Caring for the Female Patient Throughout Her Physiological Journey*. Please join us on campus for these important presentations on:

- Nutrition and Heart Disease
- Women and Brain Health
- Posture and Women
- Pelvic Floor Dysfunction
- Breast Feeding Dysfunction
- Taping Strategies for Pregnancy and Postpartum
- The Aging Spine
- Caring for the Active Female
- Integrative Health...and more

The presenters include nationally known speakers

Dr. Kristina Petrocco-Napuli

Dr. Annette Kutz-Schippel

Dr. Cindy Howard

October 5-6, 2019
Musculoskeletal Diagnostic Ultrasound
Session #10
Review and Assessment
Instructor: Ross Mattox, DC, RMSK

The 120-hour ultrasound certification course concludes this weekend. The objectives for session #10 are: (1) review basic operation of ultrasound systems and scanning protocols for the foot region (2) review scanning protocols for the upper and lower extremities (3) practice hands-on scanning of the upper and lower extremities on live subjects (4) review sonographic pathoanatomy, clinical applications of sonography, and clinical correlations related to neuromusculoskeletal conditions of the upper and lower extremities. In hours 1 through 8 a thorough review is presented. In the last four hours the participants will be assessed using both practical and written examinations. Dr. Haun explains, "The end-of-course assessment will assess the participants using both practical and written examinations. The participants in the course will demonstrate their ability to obtain high-quality diagnostic ultrasound images

on live subjects. They will complete a full shoulder protocol and will be randomly assigned a second area to scan. The participants will be assessed on their ability to complete the protocol, operate the machine, label the images appropriately, maneuver the probe, and generate images of acceptable image quality. The participants will also complete a written examination that will assess their ability to utilize ultrasound images correlated with clinical information to make an accurate diagnosis. The participants understanding of ultrasound image generation and quality control will also be assessed in the written format. Successful completion of both examinations will qualify the participant for certification. Congratulations on completing this conference of course on Musculoskeletal Diagnostic Ultrasound. Your skills will take your practice to a higher level of patient care.

October 5-6, 2019
The Total Patient 2019
Instructors: Multiple Instructors

SEMINAR CANCELLED

This weekend we present a one-of-a-kind seminar that is only available on the campus of Logan University. Together on our campus this weekend are some of the leaders in chiropractic practice and education. Dr. Terry Yochum, Dr. Jim Cox, Dr. Dan Haun, Dr. Steve Gould, Dr. Gary Schultz, and others are all here to present an extraordinary seminar titled **The Total Patient 2019**. Moreover, this really is a nearly all-inclusive presentation. Dr. Terry Yochum presents us with a current look at the role of radiology in the current healthcare market place particularly in the area of Spondylolisthesis. From patient presentation, associated risks and guidance towards proper management. Dr. Jim Cox will present current research that amplifies the importance of chiropractic care in the midst of the current opioid epidemic. He will present cases of spine and radicular pain patients and demonstrate their diagnosis and treatment with Cox distraction spinal manipulation procedures. Dr. Dan Haun has gained an international reputation and level of expertise in Musculoskeletal Diagnostic Ultrasound and will share cases of importance to all those who practice physical medicine. Dr. Steve Gould will present an overview of sports injury, starting with appropriate evaluation and offer the keys to proper rehabilitation. Dr. Gary Schultz presents chest and abdominal imaging driven by differential considerations as he reminds us that we

have interest in the whole patient, not just the spine. Dr. Alisha Russ will present a review of the "most common" abnormalities found in Pediatric imaging and point out key differences between the Adult and Pediatric patient. This is an amazing line-up. Where else can you attend a seminar that opens with Dr. Jim Cox and includes Dr. Terry Yochum? Where else will you find superstars like Dr. Steve Gould, Dr. Alisha Russ and Dr. Gary Schultz who have decades of experience and are gifted communicators? Where else can you find a program that ends with one of Logan University's own experts, Dr. Haun who is at the cutting edge of Musculoskeletal Ultrasound utilization? Well, I can answer that question – **nowhere else!** You will only find this outstanding line-up on this campus. Do not miss it! **Why Attend?** This weekend six of the best instructors in chiropractic present the Total Patient 2019. The presentation provides immediately useable information and is approved for 12 hours of Continuing Education. This is an easy call. You need to be here for this outstanding presentation.

October 12-13, 2019
Basic Acupuncture - Session #5
Instructor: Lisa Holt, DACM, L.Ac.,
(NCCAOM), RN, CPC, CRF, FASA

In this session of the 100-Hour Acupuncture Certification Course Dr. Lisa Holt presents a detailed study of the Liver Meridian Patterns, Pathogenic Factors, Emotions, Diet, Qi Stagnation, Blood Stasis, Liver Fire, Liver Wind, Damp Heat, Cold Stagnation, Blood Deficiency, Yang Rising, Combinations, and needling of each point. In hours 3 and 4 Dr. Holt does a detailed study of the Ren Meridian, Special Effect Points, and conditions treatable, with needling of each point. In hours 5, 6 and 7 she provides a detailed study of the Du Meridian, Special Effect Points and conditions treatable, with needling each point. In hours 8, 9 and 10 she covers Scalp Acupuncture. In hours 11 and 12 she describes and discusses the Eight Extra Vessels, Special Effects, Treatment Techniques, Needle, Electro, Ion Pumping, and Ba Gua. In hours 13, 14, and 15 Dr. Lisa discusses the Five Element transporting and application. She wraps up

with a Tongue and Pulse Diagnosis workshop. Dr. Holt is a 2017 graduate of Pacific College of Oriental Medicine in San Diego, California. She is also a registered nurse (RN) and holds a large number of certifications in various healing methods. She maintains a private practice at LifePoint Acupuncture and Oriental Medicine Clinic in Chattanooga, Tennessee. Dr. Holt has earned privileges at prestigious Erlanger Hospital in Chattanooga, Tennessee as a licensed Acupuncture Physician and works alongside other healthcare practitioners to provide functional and integrative patient centered care. We are proud to have Dr. Holt join Dr. Zev to make our excellent 300-Hour acupuncture certification course even better. Please join her this weekend for Session # 5 of this in-depth course in Basic Acupuncture.

Advanced Acupuncture - Session #5
Instructor: Zev Myerowitz, DC, Dipl.Ac.
(NCCAOM), Lac.

In Session # 5 of the Advanced Acupuncture Program Dr. Zev Myerowitz discusses Taoist diagnosis and treatment of knotty diseases and internal conditions. He then discusses TCM and Taoist diagnosis and treatment of female gynecological disorders including infertility and menopause. He continues with Taoist diagnosis of cancer, AIDS, and hepatitis. He wraps up this information-packed session with an introduction to Master Tung Acupuncture. The Advanced classes delve deeper into all aspects of acupuncture and can lead to Diplomate status with the American Academy of Chiropractic Acupuncture and eligibility to sit for the Diplomate examination of the American Board of Chiropractic Acupuncture. If you are already certified in acupuncture you won't want to miss this opportunity to become an expert, maybe even a Diplomate in this powerful healing art. The course is taught

by Zev Myerowitz DC, Dipl.Ac. (NCCAOM), Lac. Dr. Myerowitz is a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join Dr. Zev Myerowitz this weekend for Session # 5 of the Advanced Acupuncture Program.

LOGAN UNIVERSITY LEADERS Made

October 19-20, 2019
The Compliance Seminar
Instructors: Ty Talcott, DC, CHPSE and
Howard Levinson, DC, CFE, AHFI, DABFP

This weekend Dr. Ty Talcott and Dr. Howard Levinson present The Compliance Seminar. This is a total compliance presentation with two outstanding experts. On Saturday Dr. Ty Talcott presents information to help simplify the implementation and maintenance of an appropriate HIPAA and OIG compliance program, with their extensive list of required and addressable standards,

in the typical chiropractic or multidisciplinary clinic, so that the option exists for the doctor to delegate and/or oversee the majority of this process and/or participate whatever level is desired. Help prepare doctors to avoid being ravaged by Medicare demands to return money paid to them by Medicare in the wake of the OIG report listing chiropractors as the number one profession for Medicare fraud and that 82% of all claims paid to them should be repaid to the government. Topics discussed in Dr. Talcott's presentation include review of newest regulatory threats to chiropractic practice; review of the latest Office of the Inspector General audits directed specifically at chiropractors; building a HIPAA manual; the new requirements relative to the notice of "patient privacy policy" and signed acknowledgment; creating a required audit schedule; how to perform the required risk analysis, and much much more. Ty N. Talcott, DC, CHPSE is a 1970 a graduate of Logan College of Chiropractic. He is a Certified HIPAA Privacy and Security Expert

(CHPSE) who has presented seminars on HIPAA and Medicare regulatory compliance all over the country. Dr. Talcott is a much sought after speaker and a recognized expert in compliance for doctors of chiropractic. On Sunday Dr. Howard Levinson discusses Promoting Appropriate Patient Management and includes Healthcare Fraud, Waste, Abuse, Ethics and Boundaries. The topics in Dr. Levinson's presentation include issues in chiropractic management of musculoskeletal conditions, electronic health records, Medicare issues, coding and documentation, ethics and boundaries (which includes a review of behaviors related to Sexual Misconduct as required by the Illinois board), and ethical violators— fraud waste and abuse. He also provides case presentation of fraudsters. Howard J. Levinson, DC, CFE, AHFI, DAPFP is a 1984 graduate of Logan College of Chiropractic. He is a Diplomate of the American Board of Forensic Examiners, a Diplomate of the American Board of Forensic Professionals, a Certified Fraud Examiner, an Accredited Healthcare Fraud Investigator and a Certified Professional Coder. Dr. Levinson functions as a resource and subject matter expert to the investigative staff of the Special Investigative Units at national insurance carriers relative to chiropractic care, physical therapy and pain management. Dr. Levinson is a member of the Logistics Section of the Midwest Medical Assistance Team, a division of DHHS. He has been deployed to most of the major national disasters since 9-11-2011. I hope you can join Drs. Talcott and Levinson for this very important seminar!

October 26-27, 2019
Overview of Autism Spectrum Disorders
and Supporting Vibrant Health on
the Spectrum
Instructor: Janet Lintala, DC

Dr. Janet Lintala is the author of the book "The Un-Prescription for Autism" that describes "a natural approach for a calmer, happier, and more focused child." And we are honored to have her on campus this weekend presenting an overview of autism spectrum disorders and supporting vibrant health on the spectrum. This 12-hour seminar is loaded with instruction that will give you much more information on the measures you can take in your practice to help the autistic patient. Dr. Lintala begins with an overview of autism including diagnostic criteria, signs of autism-screening and diagnosis, related conditions and much more. She covers the medical challenges associated with autistic spectrum disorders and uses case presentations that outline support protocols and results. She also presents a case on adult residential living with support protocols and results. She discusses autism spectrum disorders in the chiropractic office and includes working with MDs and other professionals. As the seminar continues Dr. Lintala discusses her new patient questionnaire and how to assess the patient with ASD and generate a support plan and support team using this questionnaire. Dr. Lintala discusses and describes lab tests for ASD. She outlines basic support strategies including

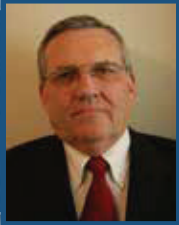

basic GI support protocols, immune support protocols; and diet support including healthy diet tips for your patient. She addresses special diets such as Feingold Diet and IgG 4-Day Rotation Diet. Also included in this information-packed presentation is information on oral health, calming strategies for anxiety and aggressive behaviors, sleep hygiene tips, attention and focus support, and anti-inflammatory and mitochondrial support strategies. She rounds out the presentation with additional case studies, more support strategies and how to build a multi-specialty team for your patients. The seminar is taught by Janet C. Lintala, D.C. Dr. Lintala is a 1994 summa cum laude graduate of National University of Health Sciences. She practices at the Autism Recovery Resource Center PLLC in Beckley, West Virginia and is a member of the NCMIS Speakers Bureau. Dr. Lintala is adjunct faculty at National University of Health Sciences. Please join Dr. Lintala this weekend for this enlightening seminar. **Don't forget that attendance this weekend by full-time doctors results in a 5% discount on your next renewal of your NCMIC malpractice insurance premium and part time doctors will receive a 2.5% discount.**

November 2-3, 2019
5 Highly Effective Acupuncture Patterns-
The Sunderlage Protocols
Instructors: Gary Ditson, DC, LAc. &
Nicholas Gatto, DC, Dipl. Ac.

This weekend we welcome back Dr. Gary Ditson and Dr. Nick Gatto to present a very important acupuncture class on our campus. Drs. Ditson and Gatto present the Sunderlage Protocols – a course that introduces and reviews the Sunderlage Acupuncture Patterns starting with Pattern 1 and ending with Pattern 5. The course objective is to teach the practitioners the latest in scientific findings verifying how and why the Sunderlage Acupuncture Patterns work and how to choose which pattern to use on the individual patient, along with how to progress through the patterns. They begin with an introduction and history of acupuncture in the United States; detail Jon Sunderlage’s legal fight for the right to practice acupuncture, the development of the acupuncture patterns and the science of the patterns as it applies to the Pyramid of Health. They begin with Pattern 1 and then move on to Pattern 2. They end the Saturday session with a lab session on Patterns 1 and 2. On Sunday they discuss and demonstrate Pattern 3, Pattern 4, and Pattern 5. In Hour 10 they discuss extra acupuncture points including the use of micro acupuncture to enhance the protocols. This excellent 12-hour

presentation wraps up with a lab session on Patterns 3, 4, and 5, and a question and answer session. The class is taught by Dr. Gary Ditson and Dr. Nick Gatto. Gary Ditson, DC, LAc. is a 1968 graduate of Logan College of Chiropractic and is on the Board of Directors for the Auriculotherapy Certification Institute. He is a frequently requested and respected lecturer on Acupuncture, Auriculotherapy and the micro-systems including scalp Acupuncture. He recently lectured to the Cancer Treatment Centers of America on Auriculotherapy. Dr. Ditson maintains a busy private practice of Chiropractic in Wentzville, Missouri where he also uses Auriculotherapy, scalp Acupuncture and body Acupuncture in the treatment of his patients. Nicholas J. Gatto, DC, Diplomate Acupuncturist is a 1983 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and is a Loomis Digestive Health Specialist. Dr. Gatto is a nationally known and respected lecturer on acupuncture and on the Loomis System. He maintains a busy private practice in Downers Grove, Illinois. Please join them this weekend for this fascinating seminar full of information and protocols that you can use in your office on Monday morning.

Basic Acupuncture - Session #6
Instructor: Zev Myerowitz, DC, Dipl.Ac.
(NCCAOM), Lac.

This weekend Dr. Myerowitz presents the sixth and final session of the 100-hour Acupuncture Certification Course. This session includes a review, a point location skills examination, and a comprehensive final examination. Dr. Myerowitz begins the session with discussion and description of the Ghost Points and covers the Influential Points and the Huazotajai Points. During hours 5 through 10 he conducts a review the entire course material in preparation for the certification exam. In Hours 9 through 11 Dr. Myerowitz administers the Clean Needle technique exam and then in hours 12 through 16.75 he administers the point location skills examination and the comprehensive written examination. This course is taught by one of the most knowledgeable and most popular acupuncturists in our profession. Zev J. Myerowitz, D.C., Dipl.Ac. (NCCAOM) is a 1978 graduate of Logan College of Chiropractic. He is

a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation, and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is Past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join us for this opportunity to study with Dr. Myerowitz.

Advanced Acupuncture - Session #6
Instructor: Lisa Holt, DACM, L.Ac.,
(NCCAOM), RN, CPC, CRF, FASA

In Session # 6 of the Advanced Acupuncture Program Dr. Lisa Holt presents Master Tung's Points including needling of specific Master Tung Points. She discusses pediatrics and then she provides a review of the Basic and Advanced courses. Following the review, she administers the final examination. The Advanced classes delve deeper into all aspects of acupuncture and can lead to Diplomate status with the American Academy of Chiropractic Acupuncture and eligibility to sit for the Diplomate examination of the American Board of Chiropractic Acupuncture. If you are already certified in acupuncture you won't want to miss this opportunity to become an expert, maybe even a Diplomate in this powerful healing art. Dr. Holt is a 2017 graduate of Pacific College of Oriental Medicine in San Diego,

California. She is also a registered nurse (RN) and holds a large number of certifications in various healing methods. She maintains a private practice at LifePoint Acupuncture and Oriental Medicine Clinic in Chattanooga, Tennessee. Dr. Holt has earned privileges at prestigious Erlanger Hospital in Chattanooga, Tennessee as a licensed Acupuncture Physician and works alongside other healthcare practitioners to provide functional and integrative patient centered care. We are proud to have Dr. Holt join Dr. Zev to make our excellent 300-Hour acupuncture certification course even better. Please join her this weekend for Session # 6 of this in-depth course in Advanced Acupuncture.

The Specific Chiropractic Adjustment:
The Technique Seminar
Instructors: Multiple Instructors

This weekend we are very excited to present this Special Event Seminar at the Purser Center. The seminar is presented by practicing chiropractors for practicing chiropractors. Nine highly qualified experts present 12 hours of chiropractic techniques featuring the high velocity low amplitude adjustment. Every instructor this weekend has had a successful practice and each of them have been technique instructors at Logan College of Chiropractic. The instructors are: **Jennifer Walpert, DC**, a 1994 graduate of Logan College of Chiropractic has taught Diversified Technique at Logan and has maintained a successful practice; **Nofa Shibley, DC** is a 1997 graduate of Logan College of Chiropractic who teaches Thompson Technique and Diversified Technique at Logan and maintains a successful practice; **Ralph Barrale, DC**, a 1969 graduate of Logan College of Chiropractic has taught Diversified Technique at Logan and maintained a successful practice; **Richard Cranwell, DC**, a 1976 graduate of Logan College of Chiropractic who teaches Gonstead Technique at Logan and maintains a successful practice; **Ralph Filson, DC**, a 1969 graduate of Logan College of Chiropractic who teaches Diversified Technique at Logan and maintains a successful practice; **Roy Hillgartner, DC**, a 1969 graduate of Logan College of Chiropractic who teaches Diversified Technique at Logan and maintains a successful practice; **Anthony Miller, DC**, a 1999 graduate of Logan College of Chiropractic who teaches Diversified Technique and Extremity Adjusting at Logan and maintains a successful practice; **Daryl Ridgeway, DC**, a 1997 graduate of Logan College of Chiropractic who teaches Diversified Technique and maintains a successful practice; and **Michael Wittmer, DC** a 1980 graduate of Logan who teaches Diversified Technique and served as Chief of Staff of the Logan Health Centers and has maintained a successful practice. Here are just some of the topics they will be covering: lumbar adjusting

including the prone adjustment, side posture adjustments such as the accordian move and the pull-thru maneuver, thoracic adjusting such as the pisiform-traction adjustment, cervical adjusting including prone cervicals and the bimanual recoil adjustment, specific atlas adjustment, extremity adjustments including shoulder, elbow, wrist, and knee, high velocity low amplitude adjusting on a drop table, Gonstead adjustments, and a look at a special pressure plate table that measures your adjustment. There's a lot more! These outstanding instructors will present specific adjustments they have used in their practices and taught to thousands of students and doctors over the last 40 years. Each instructor will discuss the specific adjustment, its rationale and its efficacy. Each instructor will demonstrate this specific adjustment and discuss modifications and enhancements they have discovered in their practices. They also welcome input from attendees on their favorite adjustments and why they use them – their "pet" techniques. In addition to this one-of-a-kind team presentation there will be a hot lunch on Saturday and a hot brunch on Sunday, along with door prizes for attendees. For chiropractors this could be the perfect weekend—chiropractic technique, good food, continuing education hours, hands on practice, sharing successful techniques, and swapping feel good patient stories. Please don't miss this seminar. It's going to be great!

Times: Saturday 1:00pm - 7:00pm
Sunday 8:00am - 2:00pm

Tuition: \$235 Regular Registration

HAPPY THANKSGIVING!

NO SEMINARS - NOVEMBER 30 - DECEMBER 1, 2019

December 7-8, 2019
Advanced Cranial Techniques for the Pediatric Patient
Instructor: Suzanne Seekins, DC, DICS

Dr. Suzanne Seekins is an acknowledged expert in chiropractic pediatrics and teaches one of our most popular courses—the 3-session chiropractic pediatric certification course. This weekend delves in more advanced techniques for the pediatric patient. This 12-hour seminar will provide didactic and intensive hands-on training in advanced chiropractic cranial techniques. Practical applications for the techniques in the clinical environment will be the focus of this seminar. Such applications include but are not limited to: ADHD, dysphasia, visual and auditory processing disorders, failure to thrive, latching disorders, occlusal imbalance, dyslexia, reading comprehension, Bell's palsy, TBI and stroke rehabilitation. She begins this class with basic cranial anatomy and a review of cranial motion. She then spends time with hands-on training in cranial rhythmic impulse (CRI). In hours four and five Dr. Seekins discusses Area Spreads and their practical use. In hour six she demonstrates cranial techniques for dysphasia, TBI, and stroke recovery. In hour seven she presents cranial techniques employed for auditory processing disorder. In hour eight she

discusses and demonstrate techniques for Bell's palsy, trigeminal neuralgia and TMD. In hour nine Dr. Seekins discusses TBI and endocrine disruption, and provides hands-on training. In hours 10 and 11 specific cranial techniques for clinical applications for a number of conditions will be discussed, demonstrated and practiced. She wraps up this information-packed seminar with specific case reviews. Suzanne Seekins, DC is a 1990 graduate of Logan College of Chiropractic. She is certified in Advanced Proficiency SOT, Sacro Occipital Research Society International, and is on the Board of Directors of the Sacro Occipital Research Society International. Dr. Seekins received the prestigious Dr. Beatrice Hagan Speaker Award at the 2019 Logan Spring Symposium. She maintains a busy practice in Naples Florida. She is one of our most popular speakers. Please don't miss this excellent presentation.

December 14-15, 2019
Ischemic Compression and Neural Fascial Chiropractic Adjustments
Instructor: Michael Fiscella, DC, DABCO, FACO

This weekend Dr. Michael Fiscella presents a full 12-hour seminar on Ischemic Compression and Neural Fascial Chiropractic Adjustments. He begins the Saturday session with a conceptual development of soft tissue adjustment to include ischemic compression, instrument-assisted soft tissue mobility, positional release/fascial mobilization, laser and other physical modalities, as well as a discussion of cupping/acupuncture. This is a truly comprehensive presentation of assessment and treatment methods and can definitely take your practice to the next level. The seminar continues with several workshops so that you can get hands-on experience with the techniques that Dr. Fiscella

presents. Saturday concludes with a workshop on cervical review of common orthopedic conditions. On Sunday Dr. Fiscella presents a day of hands-on workshops of clinical orthopedic conditions of the thoracic and lumbar spine as well as pelvis and hip. The seminar is presented by Michael Fiscella, D.C., DABCO, FACO. Dr. Fiscella is a 1977 graduate of Logan College of Chiropractic. He's an expert in Receptor Tonus Technique and Endo-Nasal Technique. He is a board certified chiropractic orthopedist and a Fellow of the Academy of Chiropractic Orthopedists. Dr. Fiscella maintains a busy private practice of chiropractic in St. Louis, Missouri. Please join him for this comprehensive seminar on Ischemic Compression and Neural Fascial Chiropractic Adjustments.

Times: Saturday 1:00pm - 7:00pm
Sunday 8:00am - 2:00pm
Tuition: \$235 Regular Registration
