

JOSEPH W. HOWE, DC, DACBR, Fellow, ACCR

May 27, 1930 - October 21, 2022

There are few members of the American Chiropractic College of Radiology whose careers have been as influential as that of Joseph W. Howe, DC, DACBR. For more than six decades, Dr. Howe, has distinguished himself by his contributions as a clinician, radiologist, educator, researcher, and mentor in the field of modern chiropractic radiology. His passion for academic excellence, critical scientific insight and professional advancement has left an indelible impact on the chiropractic profession. His influence is felt daily by the numerous residents, whom he has trained, and who themselves have become inspirational leaders in the chiropractic profession.

Dr. Joseph W. Howe has given the American Chiropractic College of Radiology and the chiropractic profession a legacy of unparalleled achievement as a role model and mentor for several generations of chiropractic radiologists. His name will always be associated with the incredible progress of chiropractic radiology in the 20th century. The Joseph W. Howe Oration in Diagnostic Imaging is designed to honor his extensive contributions to and achievements in the education, research and practice of chiropractic radiology.

Dr. Joseph William Howe, age 92, passed away on Friday, October 21, 2022.

NORMAN W. KETTNER, DC, DACBR, FICC

Norman W Kettner, DC, DACBR, DCBCN, FICC is the Dean of Research and Emeritus Professor of the Department of Radiology at Logan University. Dr. Kettner has been a faculty member since 1980 and was department chair for 35 years. In addition to training and expertise as a board-certified radiologist and neurologist, Dr. Kettner has developed experience in the tools of functional neuroimaging including fMRI, MEG and PET. In 2001, Dr. Kettner formed a research collaboration with the Athinoula A Martinos Center for Biomedical Imaging of Massachusetts General Hospital, the largest teaching hospital of Harvard Medical School. The research objectives were to investigate the brain's responses to acupuncture in patients with chronic pain and carpal tunnel syndrome. Recently, spinal manipulation in patients with cLBP has been investigated using advanced functional neuroimaging. This collaboration has yielded numerous high impact factor publications in top-ranked radiology, neurology and pain research journals including NeuroImage, Human Brain Mapping, PAIN and BRAIN. Dr Kettner has authored over one-hundred publications and eleven textbook chapters.

Alicia M. Yochum, RN, DC, DACBR, rMSK

Alicia M. Yochum RN, DC, DACBR, RMSK received her Bachelor of Science in Nursing from Point Loma Nazarene University and then worked in the ICU for one year before matriculating to Logan College of Chiropractic where she graduated Sum Cum Laude in 2011. She completed her diagnostic imaging residency at Logan in 2015 and received her DACBR in October of 2015 becoming the first second generation DACBR in the history of chiropractic. She has performed editorial review for the Journal of Chiropractic Medicine and she serves as an Associate Editor for the Journal of the Academy of Chiropractic Orthopedics (JACO).

Dr. Yochum has published many articles in peer reviewed journals and lectured around the country as well as in England and Germany. She completed her fellowship in musculoskeletal advanced imaging at Logan University with an emphasis on musculoskeletal diagnostic ultrasound. Dr. Yochum is now practicing in Arvada at Rocky Mountain Chiropractic Radiological Center.
